TO COUNTY COMMISSIONERS, Town Agents, Druggists

AND THE MEDICAL FACULTY OF VERMONT.

The old established House of

A. M. BININGER & CO.

ESTABLISHED IN 1775.

would call the attention of all interested in the use of PURE LIQUORS as medicine, to their unequalled stock of

PURE WINES AND LIQUORS.

We are permitted to publish the following notices and recommendations of the articles we offer,—which, in all cases will be warranted on credit as represented:

Messrs. A. M. BININGER & Co.

Gentlemen:—I purchased, as you requested, a bottle of your Old London Dock Gin, as sold in the stores of this city, and have made chemical analysis of this sample. It contains 42 per cent. of absolute alcohol, with odor and flavor of Juniper berries only.

On evaporation to entire dryness, this Gin is found to contain 142-100 ounces of saccharine matter per gallon, and this residual matter contained nothing else.

There is no adulterating ingredients or injurious matter of any kind in this Gin, and it contains the intrinsic merits of a pure article.

Respectfully, your obedient servant,

CHAS. T. JACKSON, M. D., State Assayer.

Boston, July 20th, 1860.

Messrs. A. M. BININGER & Co., 19 Broad St., N. Y.

Gentlemen:—We have repeatedly heard our customers express a good opinion of your popular bottled liquors, and can say that we have rarely met with articles for which a steady demand has so rapidly sprung up, and they are now standard goods with druggists throughout the East.

Yours truly,

GEORGE C. GOODWIN & CO., Druggists, Nos. 71 & 72 Marshall St., Boston.

In my opinion, the Liquors sold by A. M. Bininger & Co., No. 19, Broad street, New York, are unsurpassed in purity and reliability. I have no hesitation in recommending them in all cases where alcoholic stimulants are required.

From P. D. Orvis' Drug Report, N. Y.

A FINE ARTICLE.—BININGER'S OLD LONDON DOCK GIN.—This Gin I find to be superior to any other bottle in the market, and am rapidly introducing it in my trade.

MIDDLEBURY, Vt., March 24, 1861.

A. M. BININGER & Co., New York.

Gentlemen:—I have had occasion in my practice to use your Whisky, and have discovered that it would cure Diarrhea, even if it had assumed a chronic form.

If the intelligence is worth anything to you, I am sure it will be worth more to the public, for no family should be without it, especially in winter.

NATHANIEL HARRIS, M. D., New York.

The House of A. M. BININGER & Co., 19 Broad Street, New York, have furnished quite a large proportion of the Liquors and Wines sold by the Town Agents in this County for the past year, and the Liquors and Wines so furnished have been pure and unadulterated and have given good satisfaction. In accordance with the Laws in relation thereto, I would recommend said House to all who desire a PURE article for Medical, Medical, or Chemical purposes.

HORATIO NEEDHAM, Commissioner for Addison Co., Vt.

April 24, 1861.

From the Home Journal.

It is worthy of remark, that this venerable House has made a specialty of supplying the wants of Druggists, Physicians, and Town Agents with their pure and wholesome liquors, and the fact that their list of customers embraces over four thousand Druggists, is conclusive evidence of their popularity with that respectable class of traders.

If this popular House was of recent date, and it was deemed expedient to extend its reputation by any display of public recommendation, it would be no difficult task to arrange in the most imposing forms, thousands of endorsements as to the excellence and variety of their merchandise.

From the point of its first existence, more than eighty years ago, down to the present day, this establishment has maintained its well-earned reputation, the integrity of its financial obligations remains unimpaired, and the fidelity and promptness with which its numerous supporters have been served, furnish the best evidence that it has suffered no diminution, and that the quality of its staple articles have in no way been permitted to degenerate. If these considerations are duly weighed, no undeniable facts by that public which they have so long served, it will furnish for them sufficient encouragement to adopt as the future "coat of arms" the insignia of their native State—Excelsior!—Still higher!

American & Foreign Patents

R. H. EDDY, SOLICITOR OF PATENTS.

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

76 State Street, opposite Kilby St., Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Invents, Conveys, Executes, and defends Patents for Patents or Drawings for Patents, executed on liberal terms and with dispatch. Researches made into the validity of Patents, to determine the validity or utility of any invention, and legal or other advice rendered in all matters pertaining to same. Copies of the claims of any Patent furnished by returning One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not unequalled, in any city in which such services are offered elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reasons to believe, and can prove, that no other office of the kind is so well equipped for professional services so moderate. The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full catalogs of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents. All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."

CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMOND BURKE, Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me thirteen applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part lends me to recommend all inventors to place in his hands their applications bestowed on their cases, and at very reasonable charges."

JOHN TAGGART, From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his late practice, made on twelve rejected applications, SIXTEEN APPEALS, EVERY ONE OF WHICH was decided in his favor, by the Commissioner of Patents.

THE ONLY DISCOVERY WORTHY OF ANY CONFIDENCE FOR Restoring

THE BALD AND GRAY!

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and all have been carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:—

Bath, Maine, April 18th 1860.

Prof. O. J. Wood & Co. Gentles: The letter I wrote you in 1856, regarding your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The inquiries are, first, is it a fact of my hair has grown again, and second, is it true of all thereon contained; third does my hair still continue to be in good order and of natural color? To all I can and will answer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft, thick and better colored; the same is true of my whiskers, and the only cause why it is not generally true is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face, in close connection with the use of the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as a favor, that I will do for you, I will send you a bottle of my Restorative, so that you may see for yourself, and I will send you a bottle of my Restorative, so that you may see for yourself, and I will send you a bottle of my Restorative, so that you may see for yourself.

Respectfully yours, A. C. RAYMOND.

Prof. O. J. Wood: Dear Sir:—I am cordially doing you a great injustice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from using your bottle of your Hair Restorative. After using your Restorative for some time, I found my hair growing again, and my hair is now as thick and as good as when I was young, and I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair, taken off the past week. I received your favor of two quart bottles of your Restorative, and I have used it, and I have found it to my friends and thereby induced them to try it, many were skeptical until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, so that I may be without authority from you. A pure article will insure success and I believe where good effects, do not follow the failure is caused by the impure article which cures the inventor of the good. I deem it my duty as heretofore to keep you apprised of continued success, and I assure all who enquire of my unshaken opinion of its value and results. I remain, dear Sir, yours,

A. C. RAYMOND.
